

REMARKS/ARGUMENTS

A new Abstract has been provided, as requested. The new Abstract is taken from original Claim 12, now the main claim in this case.

Applicants greatly appreciate the indication of allowable subject matter herein, to which the case has now been limited. Because allowable Claims 13-16 referred back to Claims 8-11, and because Claims 8-11 referred back, ultimately, to Claim 7, Claim 12 has been made into the main independent claim by incorporating Claim 7 therein, and claims 8-11 have been made into method claims depending, ultimately, from Claim 12.

New Claims 18-24 are taken directly from the specification, and relate to preferred species. See page 6, lines 11-25, page 7, lines 4-12, the paragraph bridging pages 7-8, page 12, lines 3-23, page 13, lines 1-14, page 19, lines 16-18 and the paragraph bridging pages 19-20. No new matter has been entered.

As this case is directed to subject matter already indicated as allowable Applicants respectfully request a Notice of Allowance.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.
